

Moscow, December 01-02, 2009

Second International oil and gas conference
«NEFTEGAZ-INTECHECO-2009»
Hotel IZMAYLOVO, Moscow, December 1-2, 2009

MODERNIZATION OF OIL AND GAS INDUSTRY

INNOVATIVE TECHNOLOGIES AND ECOLOGY

INTERNATIONAL SCIENTIFIC AND PRACTICABLE CONFERENCE
«NEFTEGAZ–INTECHECO–2009»

ABOUT CONFERENCE

Second International oil and gas conference «NEFTEGAZ-INTECHECO-2009» will be held on December 1-2, 2009 in Moscow.

SPONSORS:

«NEFTEGAZ-INTECHECO-2009» is aimed at solving current problems in oil and gas industry in the field of introduction of new technologies and equipment, improvement of economical efficiency and ecological safety of production.

The reports to be presented at the Conference will broach issues on ecology and gas cleaning, modern electrostatic precipitators, cyclones, fabric filters, water treatment units, new technologies and equipment for enhancing total efficiency of metallurgical production, on expertise of industrial safety and anticorrosion protection of building structures and constructions, on improvement of control quality, up-to-date achievements in information technologies, control and automation means, optimization of support services.

The conference program is drawn up with regard to expectative business communication of heads, leading specialists and experts of government institutions, engineering companies and plants and facilities of oil and gas industry, oil&gas processing and petrochemical industries.

INFORMATION PARTNERS

CONFERENCE PARTICIPANTS

About 100 representatives of companies from Russia, Kazakhstan, Ukraine and Byelorussia are going to participate in the Conference: heads of companies, chief engineers, chief process engineers and power engineers, superintendents, division managers, engineers responsible for reconstruction, ecology and capital construction.

GEOGRAPHY OF CONFERENCE PARTICIPANTS

The previous Conferences was attended by representatives of companies from Russia, USA, Canada, Great Britain, the Netherlands, Germany, Czech Republic, Denmark, Finland, Poland, Ukraine, Byelorussia, Turkmenistan and Kazakhstan.

Delegates of the previous Conference «NEFTEGAZ-INTECHECO-2008» in 2008:

oil refineries and gas processing plants of Gazprom, NK Lukoil, TNK-BP, Ukratnafta, Slavneft, Haldor Topsoe (Denmark), Fingo Eco (Finland), Rosneft, BELMAN (Denmark), LUKOIL – Volgogradneftepererabotka, Lukoil-Permnefteorgsintez, Sandvik (Sweden), NIIOGAZ, Uralhimmash, Belorusneft (Byelorussia), SULZER (Switzerland), Astrakhangasprom, VIMS, VTI, Morozovsky chemical plant, BWF Envirotec (Germany), GasSertEk, Guild of Ecologists, IRIMEX, FINGO ENGINEERING, Orenburggasprom, Belarus Oil and gas Refinery (Byelorussia), Surgutgasprom, BWF (Germany), Enerlink, Ridan, Imatek &Co (Belarus), SICK Maihak (Germany), TechnoPlastEngineering (Ukraine), Tyco Fire & Building Products (USA), Belman (Denmark), Artvik (USA), VNIUS, Volgogradnefteproekt, Dow Europe GmbH, Dow Chemical (USA), Duiker, Gazprom Orenburg, Testo (Germany), Global Carbon (Denmark), Oil&Gas Eurasia, Irilyahneft, Inbio, Kalvis, NPK Kedr-89, Shebelinkgazodobicha (Ukraine), Naryanmarneftegaz, Moscow oil refinery etc.

This is a unique opportunity for the conference participants to establish new business contacts with scientific, project, and commercial companies and to exchange experience.

CONFERENCE TOPICS:

Mission of the Conference:

- To highlight trends and technical upgrading of enterprises of oil and gas industry, the cost efficiency of investments into new technologies and up-to-date equipment, as well as advantages and disadvantages of various technological and ecological programs.
- To promote upgrading of facilities in order to attain up-to-date technological level and to minimize harmful emissions.
- To exchange experience in solution of issues on industrial safety and modern methods of corrosion protection.

INNOVATIVE SOLUTIONS FOR OIL AND GAS INDUSTRY. MODERN PROCESS EQUIPMENT AND AUXILIARIES:

- New trends and strategies in world economic crises situation - problems of Russian Chemical, Oil and Gas Industries Development.
- Innovative Solutions: Processes and Equipment.
- Current issues of reconstruction and production efficiency enhancement in order to attain up-to-date technological level. Assessing the efficiency of investments into new technologies, advantages and disadvantages of their implementation at specific objects.
- The Latest Achievements of Russian and Foreign Companies in combustion systems for different processes, modern incinerators;
- Modern activated carbons and catalysts;
- Innovation solutions in automation of processes. Comprehensive automation of enterprises. Systems of production monitoring and control. Processes control automation for their optimization and improvement of industrial safety.
- Complex Solutions Based on Various Measurement Technologies for Continuous Control of Off Gases, Dust Content and Velocities of Gas Flows
- Strategic questions of updating of park of process equipment and auxiliaries, practice of increase of efficiency of oil and gas enterprises.
- Highly effective auxiliaries - industrial fans, pumps, compressors, conveyors, the packing equipment etc.

ECOLOGICAL ENGINEERING, GAS CLEANING AND WATER TREATMENT:

- The Ways of Minimizing Harmful Emissions. Impact of Industrial Enterprises on Environment.
- Complex design of systems for clearing hydrocarbon gases and effluent gases from acid components [H₂S, CO₂, RSH (mercaptans), HF, SO₂, HCl].
- The Latest Achievements of Russian and Foreign Companies in Treatment of Hydrocarbon Containing Gases.

- Experience in Revamp and Construction of New Sulfur Recovery Units at Plants and Refineries in Russia and the CIS Countries.
- Modern Equipment of Sulfuric Acid Production.
- Recovery of Harmful Components into End Products, Sulfur Granulation Lines.
- Bag Filters, Electrostatic Precipitators, Cyclones (single and group) and Scrubbing devices.
- Modern Technologies and Equipment for Treatment of Return and Waste Water.
- Industrial water treatment filters.
- Water Purification and Treatment of Process Solutions for Oil Refining and Gas Complexes.
- Modern Filtering Clothes for Gas and Water Cleaning Systems.

INDUSTRIAL SAFETY, ANTICORROSION PROTECTION:

- Issues of industrial safety of building structures and constructions.
- Modern methods of corrosion protection. Modern Russian and foreign anticorrosive coatings.
- Anticorrosion and Chemical Protection, Strengthening and Restoration of Engineering Services, Equipment and Storage Facilities at Enterprises of Oil and Gas Complex.
- Development and Introduction of Process Equipment, Gas Exhaust Channels and Gas Ducts from Chemically Resistant Polymer Materials.
- Emergency showers and fountains.

Provisional Conference Program:

30 November 2009, Monday
Starting from 12.00 – participants arrival, accommodation
1 December 2009, Tuesday
09.00 - 10.00 - Registration of Participants 10.00 - 18.00 - Official Opening of the Conference, Plenary Session
2 December 2009, Wednesday
Since 10.00 - Conference Continued
3 December 2009, Thursday
Participants Departure

There is a possibility to place an exhibition stand at the hall of the Conference.

THE VENUE

Izmaylovo Hotel Complex includes 7500 comfortable rooms in four 30-stored buildings: Alpha, Beta, Vega and Gamma/Delta, situated in immediate proximity from Partizanskaya underground station. The three star Izmailovo Hotel built in 1980 is located in one of the best park areas of the city. 25 minutes drive to the Kremlin and historical centre of Moscow and 40 minutes in car from the Sheremetyevo International Airport. The Hotel is located in 50 meters from metro station "Partizanskaya", in the greenest district of Moscow within a 5 minute walk from Recreation and Entertainment Park "Izmaylovo".

Well-developed infrastructure of the Hotel creates favorable conditions for combining business and rest. Restaurants with Russian, European, Oriental dishes are at the service of the Conference participants; billiards rooms, bowling, saunas, bars are open twenty-four hours. The Hotel offers various comfortable rooms: single, double, junior suits and suits, equipped with an allowance made for the up-to-date requirements to hotel interiors. Room rate per night: starts at 4000 roubles (90 Euro).

LOCATION MAP OF CONFERENCE VENUE:

Moscow, Izmailovskoye shosse, 71, metro station "Partizanskaya" (former "Izmailovskiy Park"). The Hotel Complex «Izmailovo Gamma-Delta» is located in 250 meters from metro station. The Conference will be held in halls on the 3rd floor of central lobby of the hotel IZMAYLOVO "Gamma-Delta".

**CONDITIONS OF PARTICIPATION
IN THE CONFERENCE**

In order to take part in the Second oil and gas conference «NEFTEGAZ-INTECHECO-2009», please fill in the Registration form and send it by e-mail admin@intecheco.ru.

Registration fee:

For reporters	550 Euro
For other delegates	350 Euro

Conference participation package includes:

- Attendance to all business events of the conference: plenary meeting, participation in work sessions, round-table discussions.
- Inclusion of reports and information on companies-participants into the conference catalogue.
- On the start of the Conference the participants receive the Conference participant pack: conference papers, conference brochure, conference catalogue and CD.
- Participation in welcome reception, social events and sightseeing.

There is a possibility to place an exhibition stand at the hall of the Conference.

The place for stand with brief information about company, table and 2 chairs at the exhibition	750 Euro
--	----------

Conference sponsors and partners are offered special conditions and individual programs for company positioning during the conference.

Sponsorship rate —2500 Euro.

Sponsorship of the conference: « NEFTEGAZ–INTECHECO–2009» includes:

- Acknowledgement of Sponsor status.
- Speech (presentation of the sponsor’s company) on the conference (20-25 minutes) and during the Banquet in the second day of the conference.
- Corporate logo of the sponsor in the Conference brochure, CD and Conference Catalogue.
- One page A4 advertising in the conference brochure.
- Banner advertising or logo on www.intecheco.ru and www.neftegaz.intecheco.ru within 6 month.
- Exhibition stand of the company in the conference hall.
- Advertising materials of the company on the registration desk
- Participation in the conference of 2 company’s representative additionally.
- Sponsor’s advertising materials in the conference package for each participant.

If within two working days from the date of sending an application you have not received a confirmation, please, send the Registration form once again or contact the organizing committee via e-mail admin@intecheco.ru or by phone: +7 (905) 567-8767.

INFORMATION FOR AUTHORS

CATALOGUE OF PARTICIPANTS, COLLECTION OF REPORTS and CD-ROM with presentations will be prepared before the Conference starts, so reporters and participants are requested to provide their reports and information on their companies in advance.

1. Please complete Conference Catalogue Form and send it and logo of your company by e-mail: admin@intecheco.ru not later than 19 November, 2009.

2. The texts of papers for publications in COLLECTION OF REPORTS should be prepared as Microsoft Word file and sent it and logo of your company by e-mail not later than 19 November, 2009.

The paper should contain:

- Title of the paper
- Names of the paper author(-s)
- Company(-ies) of the paper author(-s)
- Text of paper with illustrations (The volume of the paper – no more than 4 pages, A4 format (approx. 10 000 printed characters), including illustrations and references.

Technical requirements for the report:

- The page size is 210 x 297 mm, portrait orientation. Line interval is single
- Pages are not numbered.
- The name of the report a semi boldface font, with alignment on the center.
- Illustrations (including formulas, tables, graphics and diagrams) should be placed in the order of their mentioning. Illustrations should be numbered in the order of their mentioning and have legends. Please avoid heavy graphics with dark backgrounds, because they are not well reprinted.
- Formulas are typed in a mode of the usual text or in the editor of formulas.
- Bibliographic references in the Arabian figures in square brackets.
- The list of the literature - without heading, through one blank after the text. Sources are numbered by way of occurrence of references in the text.
- As your paper will be included in the collection, please do not give the references to your pages in your paper. Thus all these references will become false. References only to the numbers of pictures, to parts of the paper and etc. are admissible. We also kindly ask you not to use footnotes.
- The report should be analytical and not only advertise production or services of a company or establishment, the purpose of the report is to promote introduction of new technologies and methods, an effective exchange of the best practice.
- The report should not contain any information considered as the state secret.
- Reports devoted to the specific technologies or decisions should give the overview of existing decisions and their evaluation, it is desirable to evaluate prospect of the offered decision.

3. Demonstration materials for the report should be prepared in the form of presentation Microsoft PowerPoint.

4. Promotional materials for CD-ROM should be prepared as Microsoft PowerPoint presentation (*.ppt, *.pps), Word file (*.doc), Web (*.html) or Adobe Acrobat file (*.pdf) and sent by e-mail admin@intecheco.ru not later than 26 November, 2009.

After receiving the paper, conference team will send a confirmation letter. If you do not receive any confirmation letter, your paper has not been received!

Time for presentation of paper is about 20-25 minutes. The multimedia-projectors and projection screens for illustration materials demonstration will be provided for authors of papers and presentations. At conference speakers should have the presentations on CD or Flash-Drive.

CONTACTS
